

Sustainability Questionnaire

Attachment to Material Submittal Form

Project Name: LULU HYPERMARKET AT YAS ACRES	Date:
Material Description: Pegler Valves	
Example:	
Discipline ☐ Civil ☐ Architecture ☐ Mechanical ☐ Electrical ☐ Others	

Applicable Estidama Credits:

Please complete the Sustainable Materials Questionnaires as per each material/ product and return to appointed Pearl Qualified Professional (PQP) and Contractor's Estidama team with supporting documents.

Each material/ product may be applicable to one credit or more. The calculations have to be undertaken as per Estidama PBRs Version 1.0.

Please sign at the bottom or on separate statement that the provided information is correct, and return the original or a scanned pdf copy of the Sustainable Materials Questionnaires to the Contractor's Estidama Team.

SN	Pearl Building Rating System Credit Reference	Applicability	
1	SM-R1: Hazardous Materials Elimination (Kindly attach no Asbestos containing materials & no Chromated Copper Arsenate (CCA) treated timber commitment letter)	☐ YES This credit is mandatory for all material submittals.	
2	LBo-R3: Outdoor Thermal Comfort Strategy	☐ YES	☐ NO
3	LBi-R1 Healthy Ventilation Delivery	☐ YES	☐ NO
4	LBi-R3 Legionella Prevention	☐ YES	☐ NO
5	PW-R1: Minimum Interior Water Use Reduction	☐ YES	☐ NO
6	PW-R2: Exterior Water monitoring	☐ YES	☐ NO
7	RE-R1: Minimum Energy Performance	☐ YES	☐ NO
8	RE-R2: Energy Monitoring & Reporting	☐ YES	☐ NO
9	RE-R3: Ozone Impacts of Refrigerants and Fire Suppression Systems	☐ YES	☐ NO
10	SM-R3 Basic Operational Waste Management	☐ YES	☐ NO

Sustainability Questionnaire

Attachment to Material Submittal Form

Product Name / Model:	Pegler – Valves
Product Description:	Valves
Name of Manufacturer:	Alberts Integrated Piping Systems Ltd
Material Reference No.	
Date:	27/08/2026

Category		Requirements	Compliance	Documents Required	Data by Manufacturer/ Supplier
SM-R1: Hazardous Materials Elimination	All Materials Submittals	Confirmation no Asbestos Containing Materials (ACMs) or Chromated Copper Arsenate (CCA) treated timber are included in supplier orders.	☐ YES ☐ NO	Data sheets or Commitment letter	Yes
LBo-R3: Outdoor Thermal Comfort Strategy	Shading Materials, Canopies, Architectural Elements	Outer surface of the shading element must have a minimum Solar Reflectance Index (SRI) of 29.	☐ YES ☐ NO	Data sheets / Test reports to be provided	N/A
LBi-R1: Healthy Ventilation Delivery	Mechanical ventilation	Separation distances between outdoor air intakes and any exhausts or discharge points comply with ASHRAE 62.1:2007 All exhausts are located outside of the defined public realm or as defined by local code Demonstrate that all of the occupied areas in the building comply with the minimum thresholds set out in ASHRAE 62.1:2007	☐ YES ☐ NO	SFP of fans, AHRI or ADQCC certificates, Mechanical drawings, Fresh Air Calculations	N/A
LBi-R3: Legionella Prevention	Water-based Systems	Develop and implement a Legionella Management Plan for all relevant water-based systems.	☐ YES ☐ NO	Water drawings indicating the location of water tanks and legionella prevention measures	N/A

Sustainability Questionnaire

Attachment to Material Submittal Form

Category		Requirements	Compliance	Documents Required	Data by Manufacturer/Supplier
				provided, Legionella Management Plan, Audit Checklists, O&M Manual	
NS-R3: Natural Systems Design & Management Strategy	Updated Natural Systems Design & Management Report	The report must include the below: Plant selection, irrigation demand calculation, Soil and Landscape Maintenance Procedures	☐ YES ☐ NO	Shop Drawings/ Calculations / Irrigation Systems TDS	N/A
PW-R1: Minimum Interior Water Use Reduction	Sanitary wares & Fixtures	Flow rate and Pressure of Sanitary Fixtures for Bathroom Taps, Public = 1.9 l/min at 417.7 kPa	☐ YES ☐ NO	Data sheets with flow rate curve, Manufacturer information for all installed appliances on their water use, As-built utility schematics	N/A
		Kitchen Sink Faucet = 6 L/min at 417.7 kPa	☐ YES ☐ NO		
		Urinal = 0.5 Liter/flushing cycle	☐ YES ☐ NO		
		Bidets/Bidets Spray = 6 L/min	☐ YES ☐ NO		
		Ablution Tap = 6 L/min	☐ YES ☐ NO		
		Toilets (Dual Flush) = 6/4 L/f cycle (Full/Low)	☐ YES ☐ NO		
PW-R2: Exterior Water Monitoring	Water Meters	Confirmation: Digital Water Monitoring Meters with Data Logging Capability Location of water meters.	☐ YES ☐ NO	Technical Data Sheets, Shop drawings, As-built drawings, Photo evidence	N/A
RE-R1: Minimum	Above Grade Wall U-value	Yas: AWU-value achieving 0.3 w/m ² .K	☐ YES ☐ NO	Average Weighted U-value report included Test reports from	N/A

Sustainability Questionnaire

Attachment to Material Submittal Form

Category		Requirements	Compliance	Documents Required	Data by Manufacturer/Supplier
Energy Performance		Al Ghadeer: AWU-value achieving 0.28 w/m ² .K	☐ YES ☐ NO	authorized entity	
	Roof Construction U-value	Yas: AWU-value achieving 0.20 w/m ² .K	☐ YES ☐ NO		
		Al Ghadeer AWU-value achieving 0.22 w/m ² .K	☐ YES ☐ NO		
	Vertical Glazing U-value and Type inclusive of frames	Yas: U-value = 1.9 W/m ² k	☐ YES ☐ NO	Average Weighted U-value report included Test reports from authorized entity	N/A
		Yas: Glazing Ratio = 21%	☐ YES ☐ NO		
		Yas: SHGC = 0.22	☐ YES ☐ NO		
		Al Ghadeer: U-value = 1.9 W/m ² k	☐ YES ☐ NO		
		Al Ghadeer: Glazing Ratio = 18%	☐ YES ☐ NO		
		Al Ghadeer: SHGC = 0.22	☐ YES ☐ NO		
	Interior and exterior Light Power Density (LPD)	LPD calculation achieving the PBRs Energy Prescriptive Pathway v1.0	☐ YES ☐ NO	LPD calculation Sheet, TDS and Shop drawings	N/A
	Cooling Units	AC < 19Kw - Min 3.81 Scop. > 70kW - Min 2.78 Cop & 9.20 IPLV	☐ YES ☐ NO	Third party test certificate and TDS	N/A
	FAHU	FAHU with maximum 1.8 W/l/s	☐ YES ☐ NO	Third party test certificate and TDS with fresh air calculations and shop drawings, SFP schedules	N/A
	Fan Coil Unit	FCU with maximum 0.6 W/l/s	☐ YES ☐ NO	Data sheets / Test reports to be provided, SFP schedules	N/A

Sustainability Questionnaire

Attachment to Material Submittal Form

Category		Requirements	Compliance	Documents Required	Data by Manufacturer/ Supplier
	Exhaust fan	Local supply & extract ventilation units such as window/wall/roof units serving single area (e.g. toilet extract) 0.4 W/l/s Zonal extract system where fan is remote from zone 0.6 w/l/s	☐ YES ☐ NO	Data sheets / Test reports to be provided / Schedules	N/A
	Duct insulation	Duct located in unconditioned area shall be insulated with min R-5 insulation and external spaces R-8.	☐ YES ☐ NO	Data sheet/ calculation /Test Reports	N/A
	Cooling Pipe insulation	All piping serving cooling system insulated with a minimum of 38mm insulation (insulation thermal conductivity < 0.039W/m.K) or equivalent.	☐ YES ☐ NO	Data sheet/ calculation /Test Report	N/A
	Service Hot Water	Electric hot water achieving 0.95 efficiency, tank capacity, and supply temperature	☐ YES ☐ NO	Technical Data sheets, Hot water demand, Calculations	N/A
RE-R2: Energy Monitoring & Reporting	Energy Monitoring Meters	Confirmation: Digital Energy Monitoring Meters with Data Logging Capability	☐ YES ☐ NO	Technical Data Sheets, shop drawings of single line and schematic with metering schedule.	N/A
RE-R3: Ozone Impacts of Refrigerants and	Refrigerants used in AC Units	Confirmation: ODP of the refrigerant is zero	☐ YES ☐ NO	Data sheets / Test reports to be provided	N/A
Fire Suppression Systems	Gaseous Fire Suppression Systems	Confirmation: ODP of the gaseous fire suppression system is zero	☐ YES ☐ NO	Data sheets / Test reports to be provided	N/A

Sustainability Questionnaire

Attachment to Material Submittal Form

Category		Requirements	Compliance	Documents Required	Data by Manufacturer/Supplier
SM-R3 Basic Operational Waste Management	OWM strategy should achieve Estidama requirements (Internal and external bins location and numbers)	(Internal and external Bins location and numbers), in addition to color coding and labelling.	☐ YES ☐ NO	Operational Waste Inventory, Data sheets, Shop drawings indicating location and size of waste collection bins.	N/A
Items not Mentioned in the Questionnaire					
Category		Requirements	Compliance	Documents Required	Data by Manufacturer/Supplier

Confirmed – Manufacturer or supplier.

Name: Junaid Sanitary Electrical Materials Trading LLC

Manufacturer Stamp:

Signature: _____

Date: 18 March 2026

Reference Number:

Project: RIVAGE TOWER, Al Reem Island

Material: Pegler Valves

Subject: Estidama Credit:SM-R1 Hazardous Materials Elimination - Confirmation of No Asbestos & CCA

To Whom It May Concern

We hereby confirm that the Pegler Valves does not contain any Asbestos Containing Material (ACM) and Chromated Copper Arsenate (CCA), thus comply with the Estidama requirements.

Yours Sincerely,

Yours faithfully,

Harikrishnan KR
Key Accounts Manager
